

# ASA

I have earned the ASA Seniors Real Estate professional designation, which stands for Accredited Senior Agent. Many mature buyers and sellers have unique requirements, inclusive of needing knowledge of future housing options, transition to your next home, taxation and estate regulations, and more.

I am patient, I work with individuals and their family to always put their needs first. I am dedicated to protecting my client's best interests and negotiating the best possible deals for my clients. The professional training and education I received earning the ASA designation allows me to represent sellers, buyers, and renters who need someone who understands their special interests.

Call me today & ***let an ASA take the headaches out of your move.***
