

ASA

Do you **WANT** to move, or do you feel you **HAVE** to move?

When you **WANT** to move, it is a happy time filled with excitement and looking forward – a time to celebrate. When you feel you **HAVE** to move, it can be a time filled with doubts, frustration and sadness. If you feel you **HAVE** to move, or if others are telling you that, ask me for a copy of my exclusive self-discovery checklist – it's great because it's a series of questions that is for your eyes only and that will help you come to the right decision for you.

Call me today & **let an ASA take the headaches out of your move (or non-move!).**
